DD/A REGISTRY

FILE: Training-3

Mr. Peter K. Hoglund
Vice President, General Motors
Corporation and General Manager,
Electro-Motive Division
9301 West 55th Street
La Grange, Illinois 60525

Dear Mr. Hoglund:

On behalf of our senior managers in the Executive Development Seminar, I thank you for enabling Mr. Fox to arrange the tour of your facility on 4 November. I believe it is important that our officers have a clear sense of industrial America. Here in Washington, we can easily isolate ourselves from that segment of our country, so vital to the Nation's strength. Our officers were deeply impressed by the assembly processes by which bits of cable, circuit boards, and blocks of steel were transformed into complete, modern diesel locomotives. Please convey my thanks to Messrs. Fox, Leskowski, Babel, and Mulick, who responded in an informed and candid fashion in the discussion following the tour.

Sincerely,

/s/ William N. Hart

for Harry E. Fitzwater
Deputy Director
for
Administration
